

Patient Details

Name : Priti Khanna
Date of Birth : 1 Jun 1951
Age : 71 years/Female
Referred By : Self

Report Details

Name : TB-Quantiferon Gold(3 tube test)
Sampling Received At :
2023-01-25T00:09:07.434+05:30

Name	Result	Normal Range
Nil(OD)	10	-
TB-Antigen(OD)	10	-
TB-Antigen - Nil(IU/ml)	0.175	0-0.35
Cumulative Result(-)	Negative	Negative

Authorized By

Dr. Amitabh Bachchan
MBBS
Registration Number : 12345678

Test Methods

1. ELISA
2. Calculated

Notes, Interpretation, Interfering Factors

1. TB-Quantiferon Gold In-Tube (QFT) is a test using a peptide cocktail stimulating ESAT-6, CFP-10 and TB 7.7 proteins.
2. The test results should be used in conjunction with each individual's epidemiological history, current medical status and other diagnostic evaluations.
3. A Positive test only indicates that the patient has been exposed to M.Tuberculosis in the past. It does not imply active TB infection. Clinical/radiological corroboration is necessary in every case.
4. A Negative test may be seen in immunocompromised individuals
5. Limitations: Stage of infection, immunodeficiency, heterophile antibodies, specimen handling errors.
6. If the test is being performed on a patient undergoing vaccination, then the test should be done either on the same day as vaccination with live-virus vaccine or 4-6 weeks after the administration of the live-virus vaccine
7. The test should not be performed for 1 month after smallpox vaccination.

This is a sample report, on a dummy patient, signed by a dummy doctor. The actual report format may vary and you are requested not to compare with the same.

1. 'Sample Received At' refers to the date and time of the first sample collection done for a patient, for a given set of tests. In case of subsequent collections(eg in case of Fasting and PP, suppression or stimulation tests) the time may not reflect the actual time of collection.
2. Methods of measurement are mentioned together at the bottom of each report, test units to the right of each test name.All reports are subject to clinical correlation and not intended for forensic purposes.
